

**ALLT FÖR  
HÄLSAN**  
12-14 NOV 2010  
STOCKHOLMSMÄSSAN

## Easy with ExpoStart

To make your participation easier at Allt för Hälsan 2010 some of the things you need for your stand are automatically included in your application. This is called ExpoStart.

The following services are included:

**Exhibitor Insurance** – Your participation in the fair is insured both during the exhibition and during the transportation to and from the exhibition. You will also get a Business Travel Insurance.

**Electricity connection** – 1 electricity connection (230V, 10A, max 2000W) is included. If you want the electricity socket placed somewhere special in your stand, please send a drawing you Exhibitor Service by fax or e-mail.

**Storage of empty packaging** – Your empty packaging will be stored during the exhibition. Mark your goods with labels from the Service Center and it will be collected and returned to your stand.

**Goods handling** – Your goods will be loaded, unloaded and transported within the fair. However, note that you have to order the goods handling a couple of weeks before the exhibition.

**Stand cleaning before day One** – Your stand will be cleaned before the first day of the exhibition. If you want your stand cleaned every day of the exhibition, you may order it.
